RM ENGLISH ACADEMY · VERSION 3

Sujet 3 · Un projet qui apprend de ses erreurs — SUJET

Entraînement Terminale littéraire · Durée proposée : 3 heures · Barème pédagogique : 40 points.

Grammar /10 · Vocabulary /10 · Reading /10 · Composition /10. Répondre en anglais. Le corrigé est séparé. Ce sujet RM n'est pas une épreuve officielle et son format ne vaut pas homologation.

Nom ou pseudonyme (facultatif) : _____ Date : _____

A · GRAMMAR /10

1. Complete: At the launch, pupils ___ photographs when the bell rang. (take, ongoing action) (2 points)

Réponse : _____

2. Complete: The labels were too small ___ from a distance. (read, passive infinitive) (2 points)

Réponse : _____

3. Complete: The club would have avoided confusion if it ___ the cleaners earlier. (consult) (2 points)

Réponse : _____

4. Complete: Each of the containers ___ a clear label now. (have) (2 points)

Réponse : _____

5. Complete: The more carefully we plan, the ___ mistakes we make. (few) (2 points)

Réponse : _____

B · VOCABULARY /10

1. Complete: The project requires better ___. (organise) (2 points)

Réponse : _____

2. Complete: We must dispose ___ waste responsibly. (2 points)

Réponse : _____

3. Give the opposite of success. (2 points)

Réponse : _____

4. Complete: The team will carry ___ a survey. (2 points)

Réponse : _____

5. Complete: All members should take ___. (responsible) (2 points)

Réponse : _____

C · READING /10

Read the passage, then answer the questions on the next page.

The environmental club at a lycée in Yaoundé began its recycling project with an ambitious announcement. By the end of the term, it hoped to reduce the amount of mixed waste produced at school. The members painted three large containers in different colours and placed them near the main courtyard. On the first day, many pupils stopped to admire them. The club took photographs and celebrated what seemed to be a successful launch.

Two weeks later, the contents of the containers told a different story. Food scraps, paper and plastic had often been placed together. Some labels were difficult to read from a distance, and the colours meant different things to different pupils. The cleaners also explained that nobody had told them where to take the separated materials. The project had supplied containers without designing the whole collection process.

Rather than abandon the idea, the club invited pupils and cleaners to a meeting. Members listened before proposing solutions. They replaced the labels with clear words and simple pictures, demonstrated the system during a break and agreed on a collection timetable. A local organisation explained which materials it could actually accept. This information mattered: collecting an item separately would serve little purpose if no suitable destination had been arranged for it.

The club also changed how it judged progress. Instead of counting photographs or online reactions, members checked the contents of the containers once a week and recorded common mistakes. They asked the cleaners whether the new arrangement was practical. The records showed gradual improvement, but the club avoided claiming that the entire school had changed its habits. Some areas still had no containers, and the observations covered only a short period.

For the final report, the pupils described both the original mistake and the changes that followed. They argued that listening to the people who use and maintain a service is part of planning, not an optional activity after a project has begun. Their next proposal was smaller than the first announcement, but it included responsibilities, a realistic timetable and a way to check whether the system was working.

C · READING — QUESTIONS

1. What was the club’s original objective? (2 points)

2. Identify two reasons why the first arrangement failed to work well. (2 points)

3. Why was the local organisation’s advice important? (2 points)

4. How did the club improve its assessment of progress? (2 points)

5. Explain the lesson expressed in the last paragraph. (2 points)

D · COMPOSITION /10

Write a speech of 200–250 words to persuade fellow pupils to take part in a realistic environmental project. Explain the problem, assign responsibilities, describe how you would measure progress, and acknowledge one possible obstacle. Use an appropriate opening and closing.

Grille : pertinence /3 ; organisation /2 ; grammaire /2 ; vocabulaire /2 ; orthographe et ponctuation /1.

Prépare ton plan puis rédige. Tu peux utiliser une feuille supplémentaire.
